

National Institute of Child Health

National Institute of Child Health is the biggest children hospital owned by Ministry of Health with state-of-the-art technology equipment and located at San Borja, Lima, Peru.

Inside the 8-story and around 49,212 square feet building, Shurjoint Roll Grooved Ductile Iron Couplings, Fittings and Butterfly Valves were utilized by the contractor for the fire protection system because they are easy to install without heat and maintain which saved much time to complete the actions and provided the safe work environment for technicians as well.
